Your Credentialing Partner

TPQVO improves credentialing processes for healthcare organizations by handling the data intensive process of verifying health care credentials with primary sources. With more than 25 years of industry experience, we can remove some of the pain of health care credentialing by helping you meet accreditation standards.

TPQVO provides credentials verification services to a broad range of healthcare clients including hospitals, ambulatory surgery centers, pain management centers, office based surgical practices, networks and medical practices.

We follow Joint Commission, NCQA, and AAHC credentials verification standards.

www.tpqvo.com

As the healthcare industry continues to evolve, hospitals face greater demands for quality and accountability. Focused Professional Practice Evaluation (FPPE) and Ongoing Professional Practice Evaluation (OPPE) have taken the place of traditional medical staff applicant review, which requires more stringent documentation and places more demands on staff to handle these responsibilities.

With fewer resources available to do more tasks, it is important to meet these requirements in the most cost-effective way.

TPQVO Can Help

- Streamline the medical/professional staff appointment and reappointment process through outsourcing application processing and document collection.
- Increase efficiency and accuracy in the credentialing process.
- Comply with Joint Commission, DNV-NIAHO, NCQA, AAAHC and other accreditation standards for credential verification.

- Increase staff productivity and time available to focus on your organization.
- Track and update licenses, DEA registrations, insurance policies and specialty board certifications. We track and notify your organization and medical staff or network members of expiration dates for licenses, liability and DEA registrations.
- Monitor licensing, Medicare/Medicaid sanctions and other disciplinary matters that arise between credentialing cycles.
- Provide clients 24/7 access to updated documents, files and verifications through our secure website.

TPQVO will:

- ✓ **Reduce the number of requests for appointments and reappointment applications.**
- ✓ **Track expiration dates for liability insurance policies, licenses and DEA registrations.**
- ✓ **Provide physicians and other health professionals 24/7 access to online applications through our secure website.**
